

## Manual Installation of the USB Driver

When performing the "Full Installation" of Symphony software on a new computer -either from a CD or the zipfile from Hilevel.com -- the Setup program will typically also install the Hilevel USB device driver. However, things such as permission level may have prohibited the installation of the driver.

The Hilevel USB device driver is in the Symphony folder named "Drivers" and is named "hs\_usbdrv.sys". The folder also contains a setup file called "hs\_usbdrv.inf". But if you right-click this inf file and select "Install", Windows 7 returns the message "The INF file you selected does not support this method of installation". So how do you install the hs\_usbdrv.sys driver?

Open the Control Panel and select "System", then "Device Manager:

Make sure the tester is on and connected to a computer USB port. Under Device Manager, expand the item "Universal Serial Bus Controllers" and notice a warning icon next to the HILEVEL Engineering Test Station:

Highlight HILEVEL Engineering Test Station and right-click to select "Update Driver Software":

Ŧ	Generie Obbilitab	
	HILEVEL Engineering	Update Driver Software
🛡	Intel(R) 7 Series/C216	Disable
🛡	Intel(R) 7 Series/C216	Uninstall
💗	Intel(R) USB 3.0 eXter	Uninstan
💗	Intel(R) USB 3.0 Root	Scan for hardware changes
💗	USB Composite Devi	Properties
	USB Mass Storage Device	.e

The next window will offer two selections; choose to browse for the driver:

		Update Driver Software - HILEVEL Engineering Test Station
Ho	NC	v do you want to search for driver software?
	•	Search automatically for updated driver software Windows will search your computer and the Internet for the latest driver software for your device, unless you've disabled this feature in your device installation settings.
-	•	Browse my computer for driver software Locate and install driver software manually.

On the next window simply navigate to the Symphony Drivers folder. Then you can select the "hs\_usbdrv.inf file" and click "Next":

G 🗓 Update Driver Software - HILEVEL Engineering Test Station
Browse for driver software on your computer
Search for driver software in this location:
C:\Symphony\Drivers Browse
✓ Include subfolders
hs_usbdrv.inf
Let me pick from a list of device drivers on my computer
This list will show installed driver software compatible with the device, and all driver software in the same category as the device.
Next Cancel

The driver will install. No need to restart the computer, just double-click the Symphony icon on your desktop to start the Symphony software.
